

LATE-FILED EXHIBIT NO. 10

**STATE OF NORTH DAKOTA
PUBLIC SERVICE COMMISSION**

**Plains Pipeline, L.P.
Highway 1804 Re-Route North Pipeline Project
Siting Application**

Case No. PU-15-614

AFFIDAVIT OF TUCKER E. GORDON

STATE OF WYOMING)
) ss.
COUNTY OF NATRONA)

Tucker E. Gordon, being first duly sworn upon oath, states and alleges as follows:

1. I am a Project Engineer for Plains Pipeline, L.P. ("Plains"), which proposes to construct, own, and operate the Highway 1804 Re-Route North Pipeline Project ("Project"), the subject of the above-captioned matter.

2. I was advised as to perjury, placed under oath, and testified on behalf of Plains at the October 29, 2015 public hearing on Plains's Application for a Certificate of Corridor Compatibility and Route Permit ("Application") for the Project.

3. In this Affidavit, I understand that I am still under oath and I am providing sworn testimony as part of the public hearing record, as authorized by and on behalf of Plains.

4. At the October 29, 2015 public hearing on Plains's Application, Plains requested that the North Dakota Public Service Commission ("Commission") issue a Certificate of Corridor Compatibility and a Route Permit designating the Project corridor and route, as set forth in Plains's Application.

5. During the public hearing on Plains's Application, Plains was granted the opportunity to submit a late-filed exhibit discussing the willingness of Plains to commit to certain procedures regarding winter construction.

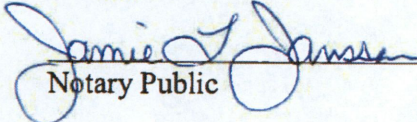

6. Plains is committed to working with landowners to ensure that the right-of-way utilized for construction of the Project is returned to its original state, or as close as practicable to its original state. During winter construction, Plains would follow industry best practices to ensure proper segregation of top soil to achieve this goal.

FURTHER AFFIANT SAYETH NOT.

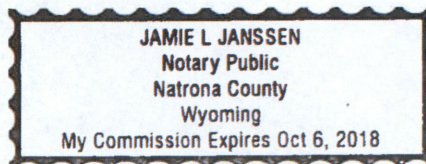

Tucker E. Gordon
