

NORTH COUNTRY CONTRACTING

Darrell Nitschke, Executive Secretary
ND Public Service Commission
600 East Boulevard, Dept. 408
Bismarck, ND 58505-0480

September 30, 2015

Re: ND One Call Complaint, Case Number PU-15-669

Dear Mr. Nitschke,

I am writing in response to a ND One-Call Complaint that was filed against North Country Contracting, LLC (NCC) by Robert Johnson with Midcontinent Communications of Grand Forks, ND. (Case # PU-15-669) The location of the damage filed in this complaint is the northeast corner of the intersection of 27th Avenue southeast and 32nd Street west, Williston, ND.

North Country Contracting had a crew excavating for the Fairhills subdivision in Williston on Thursday September 10, 2015. This crew struck a line owned by Midcontinent Communications around the time of 1:00pm. This crew was digging under normal NCC policy that a ND One Call Ticket had been called in for this project. We are not denying we excavated without a ND One Call ticket in place, however we want to stress this is not NCC policy or general practice. NCC policy and standard practice is to have a ND One Call ticket requested at least 48 hours prior to the start of excavation. Due to a series of unfortunate and unpredictable circumstances, this was not the case for this location on this day. NCC hired an estimator/project manager on August 17, 2015 that would be handling the ND One Call locate requests for this project starting the end of August/early September. However, on August 30, 2015, this estimator went into cardiac arrest and was hospitalized through the first two weeks of September. We did not realize this locate ticket had been missed until the NCC crew struck the line on September 10. Nick Wurzer, NCC employee, contacted the NCC office for the ticket number, and it was at this time NCC realized it had not been called in.

NCC started the Fairhills Subdivision project in Williston, ND in March 2013. The first ND One Call ticket for this site was requested on 3/8/2013, under the ticket # of 13015568. Since that time, numerous ND One Call locate requests have been requested for this site. I have attached 21 of the tickets requested by NCC for this site over the past couple of years, including the most recent ones since the 9/10/2015 incident. I hope this will confirm the fact, that it is not standard policy for NCC to excavate without having a locate request submitted. NCC was not trying to cut corners, doing this as a money saving factor or be intentionally non-compliant of ND Century Code Chapter 49-23 law, to not have this located in advance. The locate request was missed and the utility strike occurred, only due to the unfortunate series of events surrounding NCC personnel at that time.

We apologize for the inconvenience of this complaint, and we assure you it will not happen again.

If there is further documentation needed or questions you may have, please don't hesitate to contact me.

Sincerely,

Mitch Fuchs
NCC president

Enc: NCC locate requests for the Fairhills Subdivision

NORTH DAKOTA ONE-CALL

You can check that the ticket information and mapping location are correct, and that no work will take place outside the area indicated on the map, by clicking on the TicketLINK. Should any changes be needed, you can use the 'Update' or 'Correct' Ticket functions on ITIC.

The map is ONLY used to determine which facility operators may have facilities in your dig area. The Utilities do NOT receive a copy of this map. The precise excavation area and scope of work MUST be described in the extent of work field on the ticket.

The TicketLINK may also be used to view utility status, request a 'Relocate' or 'Cancel' a request. If you have any questions, call 563-884-7762.
