In re: Brady Wind, LLC  
Brady Wind Energy Center - Case No. PU-15-690  
Aircraft Detection Lighting System Status Update  
Our File No. 035218-00026

Dear Mr. Kahl:

Brady Wind, LLC (“Brady Wind”) has filed several status letters with the Commission regarding the installation of an Aircraft Detection Lighting System (“ADLS”) at the Brady Wind Energy Center located in Stark County, North Dakota. *See* Docket Nos. 179 & 181. Brady Wind provides this supplemental update to inform the Commission that Brady Wind’s application for site-specific approval for ADLS installation has been approved by the Federal Aviation Administration (“FAA”). However, the FAA has identified one turbine location within the Brady Wind Energy Center that may require permanent lighting. Brady Wind is evaluating lighting at this location and continues to engage with the FAA regarding potential lighting options. In addition, Brady Wind is currently in the process of procuring a contractor for ADLS installation.

Please call should you have any questions.

Sincerely,

**CROWLEY FLECK PLLP**

Casey A. Furey
