16-inch Crude Oil Pipeline – McKenzie County
Siting Application**

Case No. PU-15-744

NOTICE OF AMENDED FILINGS AND PUBLIC HEARING

February 24, 2016

A public hearing on the applications in Case No. PU-15-744 is scheduled for **April 19, 2016, at 9:00 a.m. Central Time, at Teddy's Residential Suites, 113 9th Avenue SE, Watford City, North Dakota 58854.**

On November 20, 2016, Sacagawea Pipeline Company, LLC (Sacagawea) filed applications for a certificate of corridor compatibility and a route permit concerning approximately 13 miles of 16-inch diameter crude oil pipeline and associated facilities in McKenzie County, North Dakota.

On February 10, 2016, Sacagawea filed an amendment to its applications for a certificate of corridor compatibility and a route permit to add approximately 2 miles of 16-inch diameter crude oil pipeline and associated facilities in McKenzie County, North Dakota, to its original application.

The proposed pipeline is shown in its entirety on the attached map.

The company has also filed an application for waivers of procedures and time schedules established under North Dakota Century Code sections 49-22-07.2, 49-22-08, 49-22-08.1, 49-22-13, and North Dakota Administrative Code section 69-06-01-02 and chapter 69-06-06, requiring separate filings, separate notices, separate hearings, and certain time schedules on such applications.

The issues to be considered in the application for waiver of procedures and time schedules are:

1. Are the proposed facilities of such length, design, location, or purpose that they will produce minimal adverse effects and that adherence to applicable procedures and time schedules may be waived?
2. Is it appropriate for the Commission to waive any procedures and time schedules as requested in the application?

The issues to be considered in the applications for a certificate of corridor compatibility and a route permit are:

1. Will the location and operation of the proposed facilities produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
2. Are the proposed facilities compatible with the environmental preservation and the efficient use of resources?
3. Will the proposed facility locations minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota, 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify the Commission at least 24 hours in advance.
