We reviewed ND SHPO Ref.: 15-1506 PSC "A Class I and Class III Cultural Resource Inventory of the Paradigm Johnsons Corner Connector Pipeline, McKenzie County, North Dakota," and find the report acceptable. No cultural resources were discovered during the survey of this segment of the project corridor. However, site 32MZx97 was found during the survey entitled "A Class I and Class III Cultural Resource Inventory for the Paradigm Tesoro Connector Pipeline, McKenzie County, North Dakota. Therefore we concur with a "No Significant Sites Affected" determination, provided the project remains as described and mapped in the report captioned above and provided site 32MZ97 is monitored by archaeologists.
