IT Does NOTHING For THE People To hold meetings when billion dollar corp. take advantage of people - one person at a time, who cannot afford to take on a billion dollar corp.

They can do ANYTHING they want and follow no laws and know they can get away with it.

Private citizens don't have billions of dollars and a few life times to argue about laws, corp. do.

They are taking private property from the people for pennies, that is worth millions and destroying the owners lives and property.

The state intends to give them a permit to do it.

There is no lease on this land for coal. There was a lease for 20 years - that was renewed for another 20 years.

The last 20 year lease has ended a few years ago. There is NO COAL LEASE ON THIS LAND NOW. There are NO forever leases on it. By law or any other reason or excuse.

The people formed states to protect themselves from this type of filthy activity by these kind of people. There are laws against it.

States claim To be helpLess against
Corp. bullies

No state or Person can give Permits
To CorPs. To Lease out other Peoples
Private Property

There is NO coal lease on this Land
Regard Less of any excuses or Twisting
of words or the Truth.

No advanced royalties were accepted
For years. They were sent back to
North American Coal by registered mail.

yeT: North am, coal is deducting
these small advanced royalties from
their Taxes.

Records are being kept for Proof
of these deductions on their Taxes.

There can be No Renewal on a
Lease that don't exist
