ATTENTION: NEW ANNUAL PERMIT EXPIRATION DATE

N.D. Admin. Code Section 69-10-04-02.2 requires a registered service company to file an annual application for registration as a registered service company.

Previously the expiration date of a registered service company permit coincided with the certification (metrology) due date of the registered service company's standards. Since there can be numerous metrology due dates, a registered service company permit will now expire on December 31 of each year. A renewal notice and application will be sent to each company prior to December 31.

It is the responsibility of the registered service company to ensure its standards are certified annually by a NIST-recognized metrology laboratory as provided for in N.D. Admin. Code Section 69-10-03-02. After certification of the standards has been completed, the calibration reports must be filed with the Commission.

Failure to maintain certification of the standards and submit the calibration reports to the Commission may result in revocation of the registered service company permit as allowed by N.D. Admin. Code Section 69-10-04-03.

If you have any questions, please contact Shelly at 701-328-4070. Thank you.

Generate an Annual Report To File

To Generate a Annual Report form to be filed with the Secretary of State, select the appropriate year of the report you intend to file. This report does not contain details of a report previously filed with the Secretary of State. The annual report years reflected are an indication of the various report forms available in this site and is not an indication that an entity needs to file reports for all years. Missing years indicate that the forms for the missing year have not yet been deployed to the website, or have already been removed, and can be obtained by contacting the Secretary of State.
