The issues to be considered in the application for waiver of procedures and time schedules in Case No. PU-15-797 are:

3. Will the proposed facility locations minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

If it finds that a waiver of procedures and time schedules is appropriate, the Commission may proceed to consider the application for a corridor certificate and route permit without further notice.
