Re: Cost of Gas Adjustment
(COG) Rate 88 and Rate 99
Case No. PU-16-008

In accordance with North Dakota Century Code Section 49-05-05, Montana-Dakota Utilities Co. (Montana-Dakota), a Division of MDU Resources Group, Inc., respectfully submits an original and two (2) copies of a Cost of Gas (COG) change pursuant to the terms of Rates 88 and 99.

Attachment A is the Rate Summary Sheet (147th Revised Sheet No. 3) showing the proposed natural gas rates, with currently effective distribution rates.

Montana-Dakota purchases gas supplies under a number of contracts. The commodity cost of gas has decreased \$0.262 per dk since the April 1, 2016 rates due to a decrease in the overall commodity price of gas. Attachment B explains the reasons for the decrease in the market price of gas.

The COG tariff sheet, Exhibit A page 1, summarizes the gas cost adjustment, the surcharge adjustment, and the market based pricing differential provision, calculated pursuant to the terms of Rate 88 that will apply during the month of May 2016.

The net effect of this filing, calculated pursuant to the terms of Rate 88, is a decrease of \$0.262 per dk for residential customers and firm general customers, a decrease of \$0.263 per dk for small and large interruptible customers and a decrease of \$0.262 per dk for Air Force interruptible customers from the currently effective rates.

Exhibit B shows the calculation of the current gas cost adjustment that will be applicable to Montana-Dakota's customers for the month of May 2016. The average cost of gas for firm customers, adjusted for losses, is \$2.991.

Exhibit B-1 contains confidential information on gas commodity pricing and is designated as Trade Secret in accordance with the Commission's March 23, 2016 Order in Case No. PU-16-008.

Exhibit C shows the calculation of the return on storage inventory balances and prepaid

demand and commodity balances using the calculation procedure set forth in Rate 88. The overall rate of return of 7.340% was authorized by the Commission in Case No. PU-15-90.

Montana-Dakota purchases propane supplies from various wholesale suppliers. Exhibit A, page 2 summarizes the cost of gas – propane calculated pursuant to the terms of Rate 99, which will apply during the month of May 2016. The net effect of this filing is a decrease of \$1.478 per dk for all customers from the currently effective rates as a result of the annual change in the surcharge adjustment. There is no change in the cost of propane from that established in the April 2016 PGA filing.

Exhibit D shows the computation of the (over)/under recovered gas cost account balances.

Exhibit E shows the calculation of the surcharge adjustment applicable to the cost of gas – propane which will apply during the period May 1, 2016 through April 30, 2017. The surcharge is (\$1.246) per dk, a decrease of \$1.478 per dk for all customers.

These proposed adjustments, calculated in accordance with Rate 88, will amount to a decrease of approximately \$149,600 for natural gas customers during the month of May 2016. All of Montana-Dakota's retail natural gas customers in North Dakota may be affected by this proposal. There were 107,731 natural gas customers and 345 propane customers in North Dakota as of February 29, 2016.

Please refer all inquiries regarding this filing to:

Montana-Dakota submitted a check on January 8, 2016 to the North Dakota Public Service Commission for \$600 pursuant to the requirements of North Dakota Century Code Section 49-05-05. This payment will cover the filing fee associated with the monthly COG filings.

Montana-Dakota respectfully requests that this filing be accepted as being in full compliance with the filing requirements of this Commission.

Please acknowledge receipt by stamping or initialing the duplicate copy of this letter attached hereto and returning the same in the enclosed self-addressed stamped envelope.

If you have any questions regarding this filing, please contact me at (701) 222-7856 or tamie.aberle@mdu.com

Market Conditions for Regional Natural Gas**

May 2016

The established monthly price for the Rocky Mountain CIG Index has increased slightly from the previous filing. The CIG Rocky Mountain Index is based on a price discovery survey by several natural gas periodicals, including “Inside FERC Gas Market” report and “Gas Daily” by McGraw-Hill Companies, of prices paid by willing sellers and buyers of quantities of gas in that region. That price is reflective of natural gas prices in the Rocky Mountain region and indicative of the supplies Montana-Dakota purchases for its requirements.

Despite the contracting of gas for the storage injection season, continuing high domestic production and national storage levels at or near record levels for this time of the year resulted in the price of natural gas remaining in the same range as the previous month. The EIA reported the national storage level as of March 25, 2016, at 51.9 percent above the five-year average and 68.3 percent above last year’s storage balance.

The EIA provides various publications on energy issues. The information is available on their website: <http://www.eia.gov>.

- 1/ Casper Division service area is defined on Sheet Nos. 2 and 3 of this Tariff.
- 2/ All charges are per therm.
- 3/ For fuel, lost and unaccounted for gas, the Company shall be entitled to retain the stated percentage of all therms received for transportation, unless otherwise agreed in writing. On or before March 1 of each year, the Company shall file with the Commission an application to revise the stated percentage to be effective June 1 of that year through May 31 of the following year. The Company shall calculate the stated percentage using not less than twelve (12) consecutive months of actual data.
- 4/ Interruptible Transportation Service is not available to DSE customers. The Customer Charge will be charged only for those months gas actually flows.
- 5/ In addition to the transportation charges stated above, Shippers are responsible for the monthly administrative fee as stated, applicable to each meter located at the customer location. For Interruptible Transportation Shippers, the Administrative Fee will be charged only for those months gas actually flows. Firm Transportation Shippers will be charged each month, regardless of gas flow.
