Northern States Power Company
Customer Credit – DOE Settlement 2014 - 2016
Application

Case No. PU-16-19

NOTICE OF OPPORTUNITY FOR HEARING

January 10, 2018

On November 13, 2017, Northern States Power Company (NSP) received a settlement payment from the United States Department of Energy (DOE) regarding the failure of the DOE to provide permanent storage of spent nuclear fuel. On December 8, 2017, NSP filed with the Commission to refund \$788,140 (not including interest earned less bank fees) as a credit on the customer bill. For a residential customer that uses 12,000 kilowatt hours per year, the one-time bill credit would be approximately \$3.34.

The issue is to determine whether the proposed refund is just and reasonable.

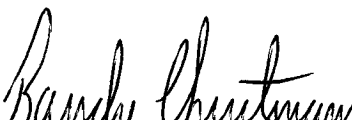

Comments and requests for a hearing must be received by **February 16, 2018**. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. If deemed appropriate, the commission can determine these matters without a hearing.
