For NSP:

Mitch Wilkinson
Dave Sederquist
John Amescoff (via phone)

Minutes: NSP presented an overview of the performance plan and the results that led to NSP requesting a revenue increase. NSP also discussed updated information it filed, and the relationship between the four cases. NSP no longer requests a fuel adjustment waiver but believes all the revenue adjustments should be combined, with NSP issuing one customer credit. NSP discussed the reasons for the proposal, and answered questions from the commission and staff. Staff noted areas of agreement and concern, and advised that additional investigation and an additional Notice are necessary before the commission can make a decision.
