In re: Brady Wind II, LLC
Brady II Wind Energy Center - Case No. PU-16-042
Aircraft Detection Lighting System Status Update
Our File No. 035218-00027

Dear Mr. Kahl:

Brady Wind II, LLC (“Brady Wind II”) has filed several status letters with Commission regarding the installation of an Aircraft Detection Lighting System (“ADLS”) at the Brady II Wind Energy Center located in Stark and Hettinger Counties, North Dakota. *See* Docket Nos. 128 & 130. Brady Wind II provides this supplemental update to inform the Commission that Brady Wind’s application for site-specific approval for ADLS installation has been approved by the Federal Aviation Administration (“FAA”). However, the FAA has identified four turbine locations within the Brady II Wind Energy Center that may require permanent lighting. Brady Wind II is evaluating lighting at these locations and continues to engage with the FAA regarding potential lighting options. In addition, Brady Wind II is currently in the process of procuring a contractor for ADLS installation.

Please call should you have any questions.

Sincerely,

CROWLEY FLECK PLLP

Casey A. Furey
