Brian Johnson, Commission counsel
Patrick Fahn, Commission staff
Jerry Lein, Commission staff

Meeting Minutes:

The Commissioners discussed the status of implementation of light-mitigating technology systems at the wind farm projects in the Cases enumerated above. Functioning light-mitigating technology systems for these wind farms are required by law by December 31, 2019.

The Commissioners directed that staff send a letter to each wind farm project in the Cases enumerated above, with the exception of the Aurora Wind Project, notifying them that they are not in compliance with N.D.C.C. 49-22-16.4 and N.D.A.C 69-06-11-02 since their light-mitigating technology systems were not functioning by December 31, 2019.

Prepared by: Patrick Fahn
