Dear Mr. Steve Kahl,

This is the final Tree and Shrub Inventory and Mitigation/Replacement Plan success report for Brady Wind II LLC, PSC case # PU-16-042 File # 35-218-027. The replant effort has met the success criteria with an 82% survival rate (minimum required 75%). Please see the table below for details. I have also attached a copy of the original Tree and Shrub mitigation plan.

Landowner	Number of Trees Removed	Number of Trees to be replanted	Number of Tree that survived	Species
Val Herberholtz Mark and Karen Koller	19	38	33	Juniper
Mark and Karen Koller	5	10	0	Juniper
Mark and Karen Koller	38	76	69	Common Choke Cherry
Total	62	124	102	
Total success rate			82%
