Renewal 6 to Permit NACT-8503 is being requested because portions of the permit continue to be used in support of mining in other permit areas during the next five-year permit term. All coal removal operations have been completed within this permit area.

The current bond for this permit is covered under the Consolidated Bonding Plan. The current consolidated bond is \$146 Million which is sufficient to address all mining disturbance at the Coteau Mine and will continue for the 5 year period. The consolidated bond was last updated with Revision 27 to Permit NACT-0401.

The current Certificate of Liability Insurance, on file with the PSC, expires February 1, 2017 and will be renewed on a yearly basis throughout the renewal period.
