**Re: Case No. PU-16-122, Oliver Wind III, LLC
230 kV Transmission Line – Oliver & Morton**

The North Dakota Public Service Commission retained Keitu Engineers & Consultants, Inc. as a third-party vendor to provide construction inspection services in the above-referenced case. A copy of the Reclamation and Revegetation Inspection Report filed by Keitu as well as the Commission's Order in this proceeding is accessible through the Commission's website at the following links:

Reclamation and Revegetation Inspection Report:

Commission Order:

As discussed in the Reclamation and Revegetation Inspection Report, there are areas that need attention due to lack of vegetation and weed control around the substation. Please review picture number 1 and provide an updated picture. Additionally, please report back to the Commission on the Company's weed control efforts around the substation. We anticipate this update in August of 2018 in order to ensure that these issues have been addressed.

If you have any questions regarding this letter, please contact me at 701-328-4153.
