**RE: Plains Terminals North Dakota LLC -
Case No. PU-16-140**

Dear Mr. Nitschke:

It has come to my attention that there was a formatting issue with a document contained on the original electronic version of the Consolidated Application for a Certificate of Corridor Compatibility and Route Permit for the Johnsons Corner to Dakota Access Pipeline Project filed with the North Dakota Public Service Commission on March 28, 2016, in the above entitled case on behalf of Plains Terminals North Dakota LLC. See PSC Docket No. 1. The error was only contained on the electronic version of the Consolidated Application and not on the print copies submitted to the Commission.

Enclosed for filing, please find a corrected electronic version of the Consolidated Application which fixes the formatting error only. Please substitute the electronic version of the Consolidated Application contained on the disk for the version currently docketed as Docket No. 1. If you should have any questions, please advise.

Sincerely,

A large, stylized handwritten signature in blue ink, appearing to read "LB".
