NOTICE OF NONCOMPLIANCE

**Project: Plains Terminals North Dakota LLC – 24-Inch Crude Pipeline Project –
McKenzie County
Case No.: PU-16-140**

The Commission's August 17, 2016, Order on Recommended Findings of Fact, Conclusions of Law and Order in Case No. PU-16-140 issued Certificate of Corridor Compatibility No. 191 and Route Permit No. 203 to Plains Terminals North Dakota LLC (Plains) designating a location for the construction, operation, and maintenance of the Project.

As-built design specifications and GIS

The Certification to Order Provisions paragraph 33 (Certification) attached to and made part of the Order required that the Company provide the Commission with both an electronic (pdf) and a paper copy of the corridor approved by the Commission and the facility design specifications for the construction of the transmission facility showing the location of the transmission facility as built, and provide this information within 3 months of completion of the construction. The Certification required that the Company also provide an electronic version of the corridor approved by the Commission and the facility design specifications for the construction of the transmission facility showing the location of the transmission facility as built that can be imported into ESRI GIS mapping software within 3 months of completion of the construction. It appears the Company is in noncompliance of the Commission's Order by not filing with the Commission these mapping requirements.

Staff requests these mapping documents and data be filed with the Public Service Commission by January 28, 2022, to avoid further action due to noncompliance.

Please feel free to contact me with any questions.

Best regards,
