RE: CHS, Inc., Pisek, North Dakota
Discontinue Business

The Commission received a request from CHS, Inc. to discontinue licensing its grain facility in Pisek, North Dakota. CHS, Inc. notified staff that it is no longer operating the grain side of its business at Pisek and therefore, is not renewing its facility-based grain buyer license at this location. All grain has been moved from this facility.

I recommend the request be approved. A corresponding motion and order are attached.
