

MEMORANDUM

To: Case Nos. PU-11-99 and PU-16-405
From: Patrick Fahn
Date: March 9, 2022
Subject: Tree and shrub plan

On December 1, 2021, the Commission issued an Order adopting the March 13, 2019, version of the Tree and Shrub Mitigation Specifications for Hiland Crude, LLC.

During construction of the 4 Bears to CDP Connect Project, 221 trees/shrubs were removed.

On December 16, 2021, Hiland filed a plan to comply with the Tree and Shrub Mitigation Specifications. Replacement plantings will occur in Spring 2022 on a single landowner's property, and will include 396 Caragana and 90 Green Ash.

I recommend the Commission approve Hiland's Tree and Shrub Mitigation Plan.
