Re: Glacier Ridge Wind Farm Application for Certificate of Site Compatibility, Case No. PU-16-539

Dear Mr. Nitschke:

Attached please find late-filed exhibits to be added to the docket for Case No. PU-16-539:

- Exhibit No. 29 – revised project map
- Exhibit No. 30 – top soil segregation in freezing conditions
- Exhibit No. 32 – prime farmland percentage
- Exhibit No. 33 – nearest turbine to non-participating parcel
- Exhibit No. 35 – radar-activated lighting

Also attached is the State Historical Society's concurrence letter for the Class III Cultural Resources Inventory for Architectural Resources, dated October 17, 2016.

Exhibit No.	Description	Status
28	Description of how RES handles the remote operation/monitoring	Submitted 10/07/16
29	Map revision (revised Exhibit 2a)	Submitted 10/18/16
30	Description of RES construction practices that ensure topsoil will be handled appropriately per the certification and if the Commission gives approval to remove after freezing conditions.	Submitted 10/18/16
31	Economic benefit calculation	Submitted 10/07/16
32	Prime farmland percentage	Submitted 10/18/16
33	Nearest turbine to non-participating parcel	Submitted 10/18/16
34	Certification	Submitted 10/07/16
35	Radar-activated lighting	Submitted 10/18/16

Seven hard copies of each document will be sent via mail. Please do not hesitate to contact me with any questions at 512-213-8501 or anne-marie.griger@res-group.com.

Sincerely,

Anne-Marie Griger
Permitting Specialist
