PUBLIC SERVICE COMMISSION**

**Glacier Ridge Wind Farm, LLC  
Glacier Ridge Wind Farm Project – Barnes County  
Siting Application**

**Case No. PU-16-539**

**NOTICE OF OPPORTUNITY FOR HEARING**

**May 10, 2017**

On December 7, 2016, the Commission issued Certificate of Site Compatibility Number 51 to Glacier Ridge Wind Farm, LLC (Glacier) designating a site for Phase I of the Glacier Ridge Wind Farm Project in Barnes County. A decision concerning designation of a site for Phase II was held in abeyance while Glacier obtained site control documents.

On January 30, 2017, Glacier filed a Motion to Lift Stay with Respect to Decision on Phase II. Glacier reports finalized site control for all of the Phase II facilities consisting of up to 35 Wind Turbines and associated facilities in Barnes County as shown on the attached map. The issues to be considered in his matter are:

1. Will the location and operation of the proposed facilities produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?
2. Are the proposed facilities compatible with the environmental preservation and the efficient use of resources?
3. Will the proposed facility locations minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

Those interested are invited to comment in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearing must be received by June 23, 2017.** If deemed appropriate, the Commission can determine the matter without a hearing.
