RE: Case No. PU-16-539, Glacier Ridge Wind Farm, LLC - Glacier Ridge Wind Farm

Mr. Fahn,

In response to your letter dated September 27, 2021 requesting information regarding the Glacier Ridge Wind Project, Case No. PU-16-539, this letter is to inform you that this project has been canceled and construction work will not resume. All 19 of the turbine foundations that were excavated were properly backfilled and restored to as near as practicable to the condition that existed prior to the beginning of construction, according to permit and certification conditions. Please see attached photos documenting proper topsoil backfilling, which was completed in October 2020. All landowner leases were terminated as of the end of December 2020.

Please feel free to contact me directly at 512-617-2894 or anne-marie.griger@res-group.com if you have any additional questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'Anne Marie Griger'.

Anne-Marie Griger
Senior Permitting Manager
