Good Afternoon Cass

Attached is the Registered Service Company Annual Permit for Pomeroy IT Solutions Sales Company, Inc. I will mail the original today.

The Tested and Approved sticker must contain the telephone number for Pomeroy IT Solutions Sales Company, Inc. as required by N.D. Admin. Code Section 69-10-01-03. In the interim, the phone number must be written on the sticker with a permanent marker. Please mail me an actual sticker with the phone number written on it and then follow up with the revised sticker after it has been printed. The sticker must also remain readable and unaffected by the elements.

N.D. Admin Code Section 69-10-01-03. Sealing.

A weighing or measuring device used in commerce must be certified and sealed. A security seal must be installed where applicable, to prevent adjustments to the calibration of the device. An adhesive sticker that is of sufficient quality that it remains readable and unaffected by the elements must be installed externally to show visual proof of certification. It is unlawful to remove, or allow to be removed, an official tag or seal without commission approval. Effective January 1, 1995, an adhesive sticker must contain the following information: name and telephone number of the commission or registered service company certifying the device, the words "tested and approved", and the month and year of certification.

Brandon can give me a call and we will work with him on setting up a time for our inspector to witness the scale testing.

If you have any questions, please let me know.

Thank you!

Hi Shelly,

Finally got these in and onto a crimper. Please see the attached die pic. I'll be getting some of these out to Brandon.

Thanks for your help.

Hi Cass

Do you have a copy of the crimped lead wire seal?

Good morning,

The attached was mailed on August 18th. Brandon Elsenpeter checked in with your office and was told that it had not been received. Please advise.

Thank you,

Cass Utter | Business Administration Analyst | **Pomeroy** | 6900-G Northpark Blvd, Charlotte, NC 28216 | Office: 704-943-5343 | Mobile: 704-650-4794

ATTENTION: NEW ANNUAL PERMIT EXPIRATION DATE

N.D. Admin. Code Section 69-10-04-02.2 requires a registered service company to file an annual application for registration as a registered service company.

Previously the expiration date of a registered service company permit coincided with the certification (metrology) due date of the registered service company's standards. Since there can be numerous metrology due dates, a registered service company permit will now expire on December 31 of each year. A renewal notice and application will be sent to each company prior to December 31.

It is the responsibility of the registered service company to ensure its standards are certified annually by a NIST-recognized metrology laboratory as provided for in N.D. Admin. Code Section 69-10-03-02. After certification of the standards has been completed, the calibration reports must be filed with the Commission.

Failure to maintain certification of the standards and submit the calibration reports to the Commission may result in revocation of the registered service company permit as allowed by N.D. Admin. Code Section 69-10-04-03.

If you have any questions, please contact Shelly at 701-328-4070. Thank you.
