Request To:

Operate a truck scale that deviates from North Dakota Weights and Measures rules as follows:

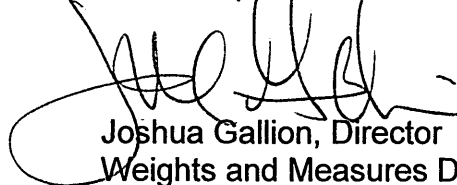

- 1) Less reinforced concrete (12") between the scale deck and the inside of the doorsill than the required five feet at both ends of the scale [N.D. Admin. Code § 69-10-02-09].

Temporary Variance Permit Conditions:

- Each scale must be placed in service by a registered service company at acceptance tolerance as identified in NIST Handbook 44 G-T.1;
- After being placed in service initially, each scale must be retested and adjusted to acceptance tolerance by a registered service company in March 2017 and September 2017;
- The service company test reports must be submitted to the Commission within seven working days of the test date and a copy retained by Paterson Grain, LLC;
- The service company test report must include both the "as found" and "as left" readings;
- Except for the specific variance granted by Permit Numbers 510 and 511, each scale must be operated according to all applicable North Dakota Laws and Rules;
- The enclosed variance permit must be posted near the designated scale in a place clearly visible to the public; and
- Failure to comply with the variance permit conditions may result in revocation.
