**To:** Bauske, Shelly A.  
**Subject:** Inspection summary for Paterson Grain (corrected)

**Subject:** Inspection summary for Paterson Grain (9331) – Bottineau

Device: 3V6-1 , Inspection date: 3/28/17; invoice WG 59095

Inspected scale, following instructions below:

Perform a site inspection

Email Inspection Summary.

Observed nothing that would indicated a problem with the installation, other than the variance issue. Pictures are on file for this account.

Also discussed rail-load out with operator. Told him he must use printer when in use. He showed me the printed paper rolls produced in its operation and that they always do this. He told me they are working on the lock out when no printer is in operation.

Recommend a permanent variance to be issued.

Wayne Grangaard  
Public Service Commission  
Heavy Duty Inspector
