

**STATE OF NORTH DAKOTA
PUBLIC SERVICE COMMISSION**

**Northern States Power Company
Transmission Facility Cost Recovery (2017)
Rates**

Case No. PU-16-658

NOTICE OF OPPORTUNITY FOR HEARING

October 19, 2016

On February 26, 2014, the Public Service Commission issued an order approving a Transmission Cost Recovery (TCR) tariff rider pursuant to North Dakota Century Code Section 49-05-04.3 for Northern States Power Company, dba Xcel Energy (NSP). On September 30, 2016, NSP filed its 2017 TCR tariff requesting approval of cost recovery for specific projects and a resulting TCR rate of \$0.002961 per kWh. The average bill impact would be an increase of \$0.466 per month for a typical residential customer without electric space heating using 750 kWh per month.

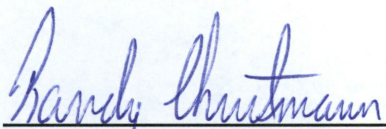

The issues to be considered in this proceeding are:

1. Whether the proposed rate adjustment complies with NSP's tariff,
2. Whether the incurred costs for new or modified electric transmission facilities are reasonable and prudent, and
3. Whether the incurred costs are eligible for recovery through the TCR rider.

Those interested are invited to comment on the application in writing. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing. **Comments and requests for hearing must be received by December 5, 2016.** If deemed appropriate, the Commission can determine the matter without a hearing.

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400 or Relay North Dakota 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify the Commission 24 hours in advance.
