Re: October 17, 2016 Warning Letter: Case No. GS-16-669

Dear Mr. White:

On November 16 and November 18, 2016, Aux Sable Midstream LLC (ASM) filed responses to my October 17, 2016 Warning Letter. ASM has provided documentation showing that a relief device of sufficient capacity has been installed and has been tested in accordance with applicable standards. Also, ASM has filed a copy of the completed relief inspection form, as well as the design/testing documentation associated with the installed relief device.

This is to confirm that ASM's response to the October 17, 2016 Warning Letter is adequate and no further response is required.

Thank you for your rapid response to this issue.

Sincerely,

Aaron Morman, Manager  
Gas Pipeline Safety

cc: Bob Bachmeier
