RE: Roving Grain Buyer License Application

Atlantic Farm Services Inc. of Moncton, New Brunswick, Canada, filed a license application to operate as a roving grain buyer in North Dakota. Atlantic Farm Services Inc. projects it will purchase up to 500,000 bushels of grain annually in North Dakota and filed a \$250,000 surety bond.

Atlantic Farm Services Inc. mistakenly notified the Commission it has transacted business as a roving grain buyer in North Dakota. No money is owed. They are a new company taking over an existing company. Atlantic Farm Services Inc. will purchase corn from licensed grain companies in North Dakota for use in Canada. Statutory compliance has been met and Staff recommends a roving grain buyer license be issued to Atlantic Farm Services Inc. A corresponding Motion and Order are attached.
