Mr. Josh Gallion
Director Weights & Measures
North Dakota Public Service Commission
600 East Boulevard Ave.
Department 408
Bismarck, North Dakota 58505

RE: Scale Variance Permit Application

Dear Mr. Gallion,

Pursuant to Section 64-02-02 of the North Dakota Century Code, Red River Oilfield Services, Inc., P.O. Box 1142, Williston, North Dakota 58802 is formally requesting a Temporary Variance Permit for its secondary portable truck scale, physically located at the Stony Creek Rail Yard, 13314 50th Road NW, Williston, ND 58801. The secondary truck scale was installed, tested and certified on November 1, 2016. A copy of the Scale Certification is attached.

The intent of this secondary portable scale is to improve the Rail Terminal's efficiency and throughput capabilities on a temporary basis only, until the June of 2017, at which time Red River will be relocating the entire Scale Complex to a more strategic and central location within the Rail Terminal. As part of this Capital Project, Red River will install both scales permanently and in full compliance with the North Dakota State Requirements.

Installing this secondary portable scale in a permanent configuration at its current temporary location and at this time will result in a significant Economic Hardship to Red River Oilfield Services, due to the cost of the permanent construction and the time required for the permanent construction, and the subsequent cost and time required to remove the permanently constructed foundation. Additionally, not being able to use the temporary scale is also creating a significant current Economic Hardship, due to the increased truck traffic and throughput times that will result in the loss of business at the Rail Terminal.

2 **WM-16-751** Filed: 11/22/2016 Pages: 5
Request for variance permit

Red River Oilfield Services, Inc.
Curtis Shuck, President

The temporary scale is an 11' x 75' Weigh-Tronix Model W/T E1310 with the Serial Number:140615144 with a 120,000# Capacity.

Therefore, Red River Oilfield Services, Inc. is formally requesting consideration and expedient approval of this Variance Permit Application.

If you have any questions, please do not hesitate to contact me. I am planning on being in Bismarck on Wednesday November 23, 2016 to meet with you and your staff at 08:30 to review the Variance Permit Application and to answer questions that you may have.

Thank you for your consideration.

Remarks (include environmental conditions, if applicable). Attach additional sheets as necessary. Scale originally installed on factory designed portable scale frame 3 months ago. Moved to new location and placed on cement concrete swamp pads. Tested as shown. Spanned corners as needed to remove errors. Scale will be moved again onto fixed concrete early in 2017. Approaches are compacted clay. Scale will be used as IN SCALE in conjunction with existing OUT SCALE.

Generate an Annual Report To File

To Generate a Annual Report form to be filed with the Secretary of State, select the appropriate year of the report you intend to file. This report does not contain details of a report previously filed with the Secretary of State. The annual report years reflected are an indication of the various report forms available in this site and is not an indication that an entity needs to file reports for all years. Missing years indicate that the forms for the missing year have not yet been deployed to the website, or have already been removed, and can be obtained by contacting the Secretary of State.
