**Re: Case No. PU-16-753, Savage Bakken Connector, Inc.
10-Inch Crude Pipeline Project – Williams County**

The North Dakota Public Service Commission retained Short Elliott Hendrickson Inc (SEH) as a third-party vendor to provide construction inspection services in the above-referenced case. A copy of the As-Built Inspection Report filed by SEH as well as the Commission's Order in this proceeding is accessible through the Commission's website at the following links:

As-Built Inspection Report:

<https://psc.nd.gov/database/documents/16-0753/069-010.pdf>

Commission Order:

<https://psc.nd.gov/database/documents/16-0753/045-040.pdf>

As discussed in the Inspection Report, it is recommended that the Company install fiber rolls in ditches at the following locations:

STA 3+48 LT
STA 10+75 LT
STA 45+50 to STA 50+00 RT
STA 105+60 (potentially)

See the discussion starting on page two of the report for further explanations.

From the pictures, it also looks like erosion control should be addressed at STA 7+75 AH (picture 6)

Please respond in 30 days as to whether or not the Company has installed the fiber rolls and if not the reasons why. If you have any questions regarding this letter, please contact me at 701-328-4153.

Sincerely,

Sara Cardwell
Public Utility Analyst
