NOTICE OF PERMIT REVISION APPROVAL

June 27, 2017

Preliminary Statement

On February 8, 2017, The Coteau Properties Company filed the application for Revision No. 33 to Surface Coal Mining Permit No. NACT-9101. This revision identifies the coal removal areas for the next five year permit term, adds 478 acres to the permit that is currently in Permit NACT-9001 and it converts the permit to an electronic format. The ownership and legal information, environmental, and operations and reclamation plans were updated in the permit. Renewal No. 5 was also approved to authorize The Coteau Properties Company to conduct mining and reclamation operations within the permit for another five year period, until June 30, 2022.

The Commission has completed its review of the application and approved the permit revision. The revision will give Coteau Properties Company the right to modify the mining and reclamation plans in Permit No. NACT-9101 as described in Revision No. 33.
