

**STATE OF NORTH DAKOTA
PUBLIC SERVICE COMMISSION**

**Cenex Pipeline, LLC
10" Refined Fuels Pipeline Williams, Mountrail, Ward
Siting Application**

Case No. PU-17-97

NOTICE OF FILING AND OPPORTUNITY FOR HEARING

August 1, 2018

On March 14, 2018, the Commission adopted its Findings of Fact, Conclusions of Law and Order (Order) approving for Cenex Pipeline, LLC (Cenex) a location for the construction, operation and maintenance of approximately 149.7 miles of 10-inch diameter refined petroleum products pipeline and associated facilities in Williams, Mountrail and Ward Counties, North Dakota.

On July 11, 2018, Cenex filed a combined application to amend the March 14, 2018 Order, amend the corridor, and amend the route.

Cenex also filed an application for waivers of procedures and time schedules established under North Dakota Century Code chapter 49-22.1, and North Dakota Administrative Code section 69-06-01-02 and chapter 69-06-06, requesting a waiver of the public hearing requirement and publish a notice of opportunity for public hearing.

Cenex proposes two route changes in Williams County requested by landowners. The first at Township 156N, Range 97W, Sections 33, 34, 35, and 36 and Township 156N, Range 96W, Sections 31 and 32; and the second at Township 155N, Range 102W, Sections 20,21, and 29.

The issues in the application for waiver of procedures and time schedules are:

1. Are the proposed facilities of such length, design, location, or purpose that they will produce minimal adverse effects and that adherence to applicable procedures and time schedules may be waived?
2. Is it appropriate for the Commission to waive any procedures and time schedules as requested in the application?

The issues in the consolidated application for an amended certificate of corridor compatibility and a route permit are:

1. Will the location and operation of the proposed facility produce minimal adverse effects on the environment and upon the welfare of the citizens of North Dakota?

2. Is the proposed facility compatible with the environmental preservation and the efficient use of resources?
3. Will the proposed facility location minimize adverse human and environmental impact while ensuring continuing system reliability and integrity and ensuring that energy needs are met and fulfilled in an orderly and timely fashion?

Comments and requests for hearing must be received by September 14, 2018. Persons desiring a hearing must file a written request identifying their interest in the proceeding and the reasons for requesting a hearing.

If determined that a waiver of procedures and time schedules is appropriate, the Commission may consider the application for a corridor certificate and route permit without further notice. If deemed appropriate, the Commission may determine the matter without a hearing.

For more information contact the Public Service Commission, State Capitol, Bismarck, North Dakota 58505, 701-328-2400; or Relay North Dakota, 1-800-366-6888 TTY. If you require any auxiliary aids or services, such as readers, signers, or Braille materials, please notify the Commission at least 24 hours in advance.
