RE: Case No. PU-17-097
Cenex Pipeline, L.L.C.
12-Inch NGL Pipeline - McKenzie County
June 25, 2019 letters

Thank you for your June 25, 2019 letter notifying the Commission of Cenex Pipeline, L.L.C.'s (Cenex) intent to adjust the route of the NGL Pipeline, outside the corridor designated by the Commission in Case No. PU-17-97.

The certification by Greg Brown regarding route adjustments filing by Cenex (docket #142) in Case No. PU-17-97 says that construction activities for the adjustments are not anticipated to affect any known Avoidance of Exclusion Areas. The statute states the filing must certify that the construction activities will not affect any known exclusion or avoidance areas. Please make this adjustment to the certification.

The certification by Greg Brown regarding route adjustments states with respect to the route adjustment located in Ward County and depicted in Exhibit 1 that crosses a delineated wetland: that Cenex has committed to boring this wetland to avoid impacts. I prefer a statement that states Cenex will bore this wetland to avoid impacts. Please make this adjustment to the certification.

Thank you for also your June 25, 2019 letter providing copies of North Dakota Department of Transportation Permits as well as a Tree and Shrub Sampling Plan. The tree and shrub sampling plan submitted is inadequate. An example of a more complete sampling plan can be viewed in Case No. PU-11-109 (docket #47), although it does not provide any specifications for determining a representative sample plot, which is important. Other examples are Case No. PU-14-842 (docket # 15) and Case No. PU-06-421 (docket #482).

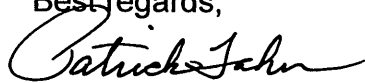

151 PU-17-97 Filed: 6/27/2019 Pages: 2
