**In re: Cenex Pipeline, LLC
10" Refined Fuels Pipeline
Case No. PU-17-097
Our File No. 020836-000001**

Dear Mr. Fahn:

I am writing on behalf of Cenex Pipeline LLC ("Cenex") in response to your June 22, 2021 correspondence filed in Case No. PU-17-97 as Docket No. 220 pertaining to tree and shrub mitigation and reporting requirements for Cenex's 10-inch refined fuels pipeline located in Williams, Mountrail, and Ward, North Dakota (the "Project"). The Project's March 14, 2018 Order incorporated Tree and Shrub Mitigation Specifications applicable to the Project. Subsequently in March 2019, the Commission adopted revised Tree and Shrub Mitigation Specifications that update the process for mitigation reporting. In lieu of annual reporting, the Commission now requires one final report detailing an entity's tree and shrub mitigation efforts and results. As proposed in the June 22 correspondence, Cenex respectfully requests the Commission amend and replace the Project's existing Tree and Shrub Mitigation Specifications (Docket No. 100) with the Commission's March 2019 Tree and Shrub Mitigation Specifications.

Please feel free to contact me with any questions.

Sincerely,

Casey A. Furey
