provision, maintenance, or upgrading of the carrier's facilities and services pursuant to 47 U.S.C. § 254(e).

The Company has developed a "2017 Report of Federal High-Cost Universal Service Support" ("2017 USF Report") which contains the required information concerning the Company's use of federal high-cost universal service support. The Company's 2017 USF Report is attached as Confidential Exhibit A³. In calendar year 2016, the Company received \$4,341,780 in federal universal service high-cost support. For calendar year 2018, the Company projects it will receive approximately \$4,341,780 in federal high-cost support.⁴

The Company's 2017 USF Report includes all information required by N.D. Admin. Code § 69-09-05-12.1(1). It describes how support received in calendar year 2016 was used for the provision, maintenance or upgrading of the Company's facilities and services, including network maintenance and operating expenses, pursuant to 47 U.S.C. § 254(e) and explains any changes from reports that have been previously provided to the Commission. The 2017 USF

Cent. Code. 44-04-18.4 and N.D. Admin. Code ch. 69-02-09, consistent with the Commission's March 12, 2008 Order Granting Trade Secret Protection to analogous information provided by the Company in a previous year. *Badlands Cellular of North Dakota Limited Partnership 2007 High-Cost Universal Service Support Annual Report*, Case No. PU-07-587, *North Dakota RSA No. 3 Limited Partnership 2007 High-Cost Universal Service Support Annual Report*, Case No. PU-07-588, *North Central RSA 2 of ND Limited Partnership 2007 High-Cost Universal Service Support Annual Report*, Case No. PU-07-590, *North Dakota 5 – Kidder Limited Partnership*, Case No. PU-07-591, *Northwest Dakota Cellular of North Dakota Limited Partnership*, Case No. PU-07-592, *Bismarck MSA Limited Partnership*, Case No. PU-07-593, Order Granting Trade Secret Protection (March 12, 2008) ("Trade Secret Order").

⁴ In November 2011, the FCC determined that universal service support for competitive ETCs per study area would be frozen, based on a 2011 baseline, and phased down annually from there. *See Connect America Fund et al.*, WC Docket No. 10-90 et al., *Report and Order and Further Notice of Proposed Rulemaking*, FCC 11-161 (rel. Nov. 18, 2011) at ¶¶ 512-519, *aff'd sub nom. In re FCC 11-161*, 753 F.3d 1015 (10th Cir. 2014). The phase-down contemplated in the Connect America Fund Order is currently on hold at the level of 60% of the 2011 baseline for several years, subject to change depending on other FCC activity. *Id.* at ¶ 519 (describing how phase-down would be halted if Mobility Fund Phase II was not implemented by June 30, 2014). In March 2017, the FCC announced that the phase-down will resume immediately following the auction for Mobility Fund Phase II. The date for that auction is not yet known, but it is anticipated to take place in 2018. Accordingly, the amount of federal high-cost universal service support to be received by the Company in 2018 is subject to change.

The order in which the Company's proposed 2018 projects will be undertaken has not been finally determined and may be revised over time. As a result, the content and timing of the 2018 projects in Confidential Exhibit A-3 are subject to change.
