Da: January 13, 2020

Re: PU-17-284: Foxtail Tree & Shrub Mitigation Plan

Foxtail Wind has filed its Tree and Shrub Mitigation plan for Commission approval. Foxtail reports removal of 1,171 trees and shrubs and has contracted with the James River Conservation District to replace them with 2,340 replacement plantings during spring or early summer, 2020. Foxtail reports that all but one of the landowners elected to have replacement trees planted on their property. Foxtail provided a waiver from this landowner.
