A hearing will be held on the proposed rules at **9:00 a.m. Central Time on January 3, 2018, in the Commission Hearing Room, 12th floor, State Capitol, Bismarck, North Dakota.** The proposed revisions to the North Dakota Administrative Code are as follows:

Case No. PU-17-339 – New Chapter 69-06-11 - Wind Energy Conversion Facility Lighting Systems

The Commission is proposing new Chapter 69-06-11 to implement 2017 House Bill 1378 enacted during the Sixty-fifth legislative session as North Dakota Century Code section 49-22-16.4, providing that the North Dakota Public Service Commission “shall adopt rules relating to the implementation of light-mitigating technology systems on wind energy conversion facilities.”

The addition of Chapter 69-06-11 is expected to have an impact in excess of \$50,000.

Case No. GS-17-370 – Section 69-09-03-02 - Pipeline Safety

The purpose of this rulemaking is to adopt by reference the most recent amendments to pipeline safety regulations adopted by the United States Department of Transportation, Pipeline and Hazardous Materials Safety Administration (PHMSA).

This rule change adopts amendments to safety regulations that have been adopted by PHMSA since December 31, 2015, current to December 31, 2017.

For Title 49 Code of Federal Regulations Part 193 – Liquefied Natural Gas Facilities: Federal Safety Standards, the Public Service Commission currently has statutory authority concerning pipeline safety of liquefied natural gas (LNG) facilities and was recently informed of a jurisdictional LNG facility located in North Dakota. The Public Service Commission must adopt all pipeline safety rules adopted by PHMSA regarding LNG facilities and the Commission is proposing to adopt Title 49 Code of Federal Regulations Part 193 in effect as of December 31, 2017.

The proposed changes are not expected to have an impact on the regulated community in excess of \$50,000.

Case No. PU-17-371 - Section 69-09-09-10 - Wind Decommissioning

The purpose of the proposed rule is to add section 69-09-09-10 providing that the Commission may grant a waiver of requirements under N.D. Admin. Code Section 69-09-09-03, Section 69-09-09-06, and Section 69-09-09-08 for a commercial wind energy conversion facility with a nameplate generating capacity of no more than five megawatts of electricity upon a motion demonstrating good cause for the waiver.

The proposed rule is not expected to have an impact on the regulated community in excess of \$50,000.

The proposed rule changes, any Regulatory or other analyses, and the statements concerning the Regulatory Analysis, Small Entity Regulatory Analysis and Economic

Impact, and Takings Assessment may be reviewed at the Public Service Commission's offices on the 12th floor of the State Capitol, Bismarck, North Dakota. To obtain a copy of the proposed rule changes or the statements contact the Public Service Commission at 600 East Boulevard Avenue, Department 408, Bismarck, North Dakota 58505-0480, 701-328-2400, toll free 1-877-245-6685, Relay North Dakota TTY 1-800-366-6888, or ndpsc@nd.gov. This information is also available on the commission's web site at www.psc.nd.gov under "Formal Actions/Case Search".

Interested persons may attend the hearing and may submit oral or written comments on the proposed rules.
