RE: FINAL QUARTERLY CONSTRUCTION PROGRESS REPORT  
304.2 MW DAKOTA RANGE PROJECT  
CASE NO. PU-17-372

Dear Mr. Kahl:

Northern States Power Company, doing business as Xcel Energy, provides the following fourth quarter 2021 construction progress report in compliance with the North Dakota Public Service Commission's December 6, 2018 ORDER ON SETTLEMENT in the above-referenced Advanced Determination of Prudence (ADP) case.

Order point 2 states:

2. *NSP shall file quarterly construction progress reports until the last project is in service, indicating the development status of each project.*

Below is an update on the activity initiated and completed during October, November, and December of 2021.

**Dakota Range I and II (302.4 MW, South Dakota)**

The project is complete and began commercial operation January 3, 2022. Because the project began commercial operation over two weeks ago, we will consider this the final quarterly report needed to comply with Order Point 2.

Below are the Q4 2021 completed milestones:

10/31/2021	Wind Turbine Deliveries Completed
11/30/2021	Wind Turbine Erection Completed
12/31/2021	Wind Turbine Commissioning Completed
12/31/2021	Project "Substantial Completion" Certificate accepted

Please feel free to contact me at (701) 371-5256 or [dave.sederquist@xcelenergy.com](mailto:dave.sederquist@xcelenergy.com) should you have any questions.

Sincerely,

DAVID H. SEDERQUIST
