

effort to identify and avoid impacts to “Significant Sites” provided the project remains as described and mapped in the report submitted to the NDSHPO. Oliver Wind III is filing the NDSHPO concurrence and Addendum No. 6 to Class III Cultural Resource Inventory concurrently with this Certification.

7. Oliver Wind III intends to begin construction to install the ADLS on October 30, 2017.
8. In accordance with N.D.C.C. § 49-22-03(3)(a), Oliver Wind III certifies as follows:
 - a. The installation of an ADLS is an improvement to the Project.
 - b. The activities required to install the ADLS will be conducted wholly within the geographic location for which Oliver Wind III previously obtained a Certificate of Site Compatibility as designated in Findings of Fact, Conclusions of Law and Order issued in Case No. PU-16-123.
 - c. The construction activities are for the installation of ADLS and will include the installation of an East radar tower, a West radar tower, service roads, additional collection lines, and temporary staging areas.
 - d. As demonstrated previously in this case, an environmental analysis was conducted for Oliver Wind III that evaluated the wind energy conversion facility site relative to the Exclusion and Avoidance Areas set forth in N.D. Admin. Code § 69-06-08-01.
 - e. The ADLS will not permanently or temporarily affect any known Exclusion or Avoidance Areas.
 - f. There will be no new permanent or temporary impacts to wetlands or waterbodies resulting from the installation of an ADLS.
9. Oliver Wind III will continue to comply with the Order in PU-16-123 designating the site, and will continue to comply with all applicable federal, state, and local laws and rules.
10. Oliver Wind III respectfully requests the Commission’s written acknowledgement of receipt of this Certification.
11. Attached is a map showing the location of improvements required for ADLS installation.
