Dear Mr. Crockford

Thank you for your considering and granting approval of our request to hire an outside company, Meter Engineers, out of Kecki, Kansas to come into the terminal and certify our portable prover with a serial number Browne 42495 at our CHS Pipeline Terminal located at 5125 HWY 2 & 52 West, Minot, North Dakota loading terminal.

I have made contact with Meter Engineers and have spoken with Nathan Wilson concerning hiring them to certify our prover can. They are interested and willing to do this work. They do believe that waiting until next spring when ambient temperatures are well above 32 degrees F would be wise. They will be in North Dakota next June and July and would gladly welcome the work.

I am writing to request a variance permit to allow us to use the prover can to prove our truckrack meters until such time as Meter Engineers can certify the prover. I would schedule them to do this work in June of 2018.

Waiting until warmer weather arrives next spring would save us a considerable amount of money and , I believe, would insure a "more accurate" calibration.

Please consider our request and let me know of you decision. We would like to prove our truckrack meters next month, in November. If you have any questions, please let me know.
Thank you for your time.

Subject: Application for Registration as a Registered Service Company

Good Morning Bob

Please complete and submit the Application for Registration as a Registered Service Company. The link is included in this email.

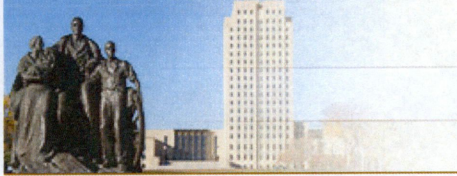

Your request for a temporary variance permit used the company name CHS Inc. Pipeline Terminal. Your permit is currently issued to Cenex Pipeline, LLC.

Please complete the application using the company name that is used for the Minot terminal. Also, the company name you use must be registered with the North Dakota Secretary of Sate to do business in North Dakota.

If the company name used on this application is different from the company name used on the variance permit request, please email me a revision to the variance permit application.

Thank you!
