Jerry,

Please look at this load, the customer has requested we serve them and it make business sense for us to do so. Let me know if you have any concerns. We'd like to install services right after the first of the year.

Ken,

Attached is a copy of a new Temporary Authority Permit Application and all associated documentation for a project that I'm working on in Powers Lake. The customer is requesting three phase electric service and Burke Divides nearest single phase line is approximately a 1/4 mile from this site.

Please review this documentation at your earliest convenience and let me know if you have any questions and, or need additional information.

Best Regards,
