22	142N	99W	22nd Street SW
27	142N	99W	23rd Street SW
34	142N	99W	24th Street SW

*Attach additional sheets if necessary.

1. The pipeline shall be placed at a minimum depth of 48 inches below the _____ surface of the ground.
2. The pipeline shall be placed under county roads by means of pipe or boring tool pushed under the surface of the road, at a minimum depth of 60 inches.
3. The bore shall be cased and booted within the road template. If vented, the vent has to be placed off the road right-of-way, or a minimum of 75' from the centerline of the road.
5. Above ground fixtures shall be located off the road right-of-way or on the right-of-way line.
6. All trenches and other excavations shall be carefully backfilled in such a manner as to eliminate settlement, and the surface of the ground shall be returned to its original condition.
7. It is understood and agreed that Billings County will not be liable for any costs in connection with the future required relocation of the facility due to road improvement.
8. Installation, maintenance, relocation, and removal of said facilities on county right-of-way shall be done in a manner satisfactory to, and subject to supervision by the County Engineer for the County Highway Department.

9. Billings County shall not be liable for damage to said facilities resulting from reconstruction or maintenance of the right-of-way. Applicant and/or its successors shall hold the County harmless for injury to persons or damage to property resulting from the location of said facilities on county right-of-way. Applicant and/or its successors are responsible for any and all claims of damage, personal injury, or bodily injury that might result from their activities in crossing any existing road or section line in Billings County. Furthermore, the applicant and/or its successors agree to indemnify and hold harmless Billings County for any and all claims of damage, either personal injury or property or any type of claim for damages of any nature whatsoever, whether valid or invalid, that is made against Billings County on account of the activities conducted by the applying company and/or its successors in crossing any existing road or section line.
10. Applicant and/or its successors shall promptly remove said facilities from county right-of-way or shall relocate or adjust said facility, at its sole cost and expense when requested to do so by the County. When the applying company and/or its successors uses an existing road or section line easement, the applying company shall be responsible to pay for all costs of moving, relocating, or reconstructing the facility, should Billings County deem it necessary or advisable, in its sole discretion, to repair or reconstruct existing roads or to build new roads on section lines or off section lines as allowed by North Dakota State law. Should the applicant and/or its successors fail to take necessary steps to relocate, or reconstruct its facility, the county may take steps to have the same accomplished, and the applying company agrees to reimburse the county for all expenses incurred by Billings County in moving, relocating or reconstruction of the facility so the existing roads may be repaired or reconstructed, or new roads may be built on the section line or off the section line as allowed by North Dakota law.
11. If at any time Billings County wants to excavate in this area and if it should require the said facility to be moved, it will be at the expense of the applying company and/or its successors.
12. Applicant and/or its successors shall repair or replace highway structures and appurtenances, and any existing facilities located on, over or under highway right-of-way, which may be damaged as a result of the installation and maintenance of said facilities on highway right-of-way, including but not limited to slumping in of trenches, collapse of pipe, etc.
13. A GPS'd drawing of proposed location must be placed on file with Billing County Auditor and must show at a minimum the location of the proposed facility from a section or quarter line, section, township and range where the said facility will be placed.
14. During construction or when encroaching upon a public roadway the applicant is required to provide proper signage such as "Roadwork Ahead or Equipment Working."
15. All permits are valid for one year upon approval by the County Commissioners
