Re: ND One-Call Excavation Notice System: North Dakota Century Code Chapter 49-23
Case # PU-18-78 Invoice from Polar Communication to
Red Lake Builders, Inc. in the amount of \$1,581.12

Dear Mr. Nitschke,

On April 28, 2015, Red Lake Builders, Inc. (RLB, Inc.) placed a North Dakota One Call regarding excavation to take place on the levee surrounding the City of Pembina, North Dakota, ticket # 15045325.

A meet with utilities affected was requested and granted for 1:00 p.m. on April 30, 2015. The meeting was attended by the affected utilities with the exception of Polar Communications, hence the line that was cut by RLB, Inc. was never located or marked.

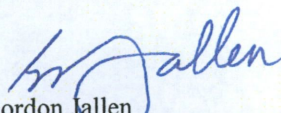

A second North Dakota One Call was placed May 29, 2015, ticket # 15072549 and at this time RLB, Inc. foreman, Jim Langlois, was informed there were no utilities in this area. So once again, this area was never located or marked.

I do realize that since the line was cut on July 10, 2015 that Polar may not view these as valid locates. However, RLB, Inc. contends that the previous two ticket requests failed to properly locate this area.

It was discussed by the Polar repair crew and Ray Brault, operator for RLB, Inc. that Polar had been having trouble with North Dakota One Call and that Polar would be sending North Dakota One Call the invoice for repair.

In summary, due to lack of attendance by Polar and the information shared, we feel RLB, Inc. should not be responsible for the repair cost or receive a violation.

Sincerely,

Gordon Jallen
Construction Manager
