

PUBLIC SERVICE COMMISSION

Abandoned Mine Lands Division

Memorandum

TO: Commissioners - Christman, Kroshus, and Fedorchak
Illona Jeffcoat-Sacco and John Schuh
Darrell Nitschke – Executive Secretary

From: ^{DKu} Dean Moos, ^{WD} Bill Dodd and ^{JOB} Joan Breiner

Date: December 14, 2019

Subject: Amendment to Contract Number AM-796-18 for the 2018 Wilton Phase 4, Shell Lake and Williams County Road 9 Phase 6 AML Project

On May 15, 2018, the Commission entered into Contract No. AM-796-18 with GEOSERV, Inc. for material testing and related services at the 2018 Wilton Phase 4, Shell Lake and Williams County Road AML Project. This project involved rotary drilling to locate underground mine voids and the injection of pressurized grout into mine voids beneath roads in Burleigh, Mountrail and Williams Counties. The contract end date is December 31, 2018. The AML Division recommends the Commission amend Contract No. 795-18 to extend the contract until February 28, 2019.

The material testing work on the project has been completed; however, the structural survey reports for Williston have not been received and final payment has not been made. The extension is to allow time for GEOSERV to submit the structural survey reports and to process final payment.
