Variance Permit Request – Article 69-10-01-04.1

Our company, Andeavor Logistics, is a full-service logistics company that operates in Western North Dakota to assist the oil and gas industry in processing produced gas and liquids. We are requesting a variance permit for the temporary use of a portable truck scale to be used legal-for-trade for our facility located at:

Andeavor
13072 38th St. SW
Belfield, ND 58622

This site has an existing legal-for-trade truck scale which has been reported to the state under the formerly known/registered names of: Tesoro Logistics and Whiting Oil & Gas.

We are making this request due to ongoing accuracy and repeatability issues we have had with our existing Cardinal permanent truck scale. The existing scale has had extensive work completed to it and has been taken out of service by Prairie Scale Systems, Inc. out of Horace North Dakota as the scale could not be adjusted within the state required tolerances.

The proposed temporary scale will consist of a Fisher Industries/Thurman Model #8100E 70' x 10' 100 ton gross mechanical lever platform scale (see attached documentation). The scale setup will consist of a digital indicator, ticket printer, rub rails for alongside the scale and one "S" type load cell. The use of the temporary scale is not to exceed the rated concentrated load capacity by the scale manufacturer. The temporary scale is to be setup, calibrated, tested and certified by Prairie Scale Systems, Inc. out of Horace North Dakota. The scale is to be setup on a level solid surface with adequate clearance for cleaning purposes. The Fisher Industries/Thurman truck scale, incorporates a bulkhead on each end of the scale to allow for fill materials such as gravel to be used for temporary approaches. The scale is to be setup and certified to meet the tolerances of a legal-for-trade scale.

If granted the temporary variance permit, we plan to have the temporary scale setup and operational by Wednesday April 10th. The temporary truck scale will be used until we can replace the permanent truck scale with a new legal-for-trade system. We plan on having the new permanent legal-for-trade system setup and operational by August 31st 2018. By this date, we will no longer need the use of the temporary scale and variance permit. The new permanent truck scale will follow all state requirements for a legal-for-trade truck scale.

We appreciate your cooperation with our request. If granted the variance, Andeavor plans to use the temporary truck scale following all requirements of your department. Please let us know if you have any questions with our request.

Thank you for your time,

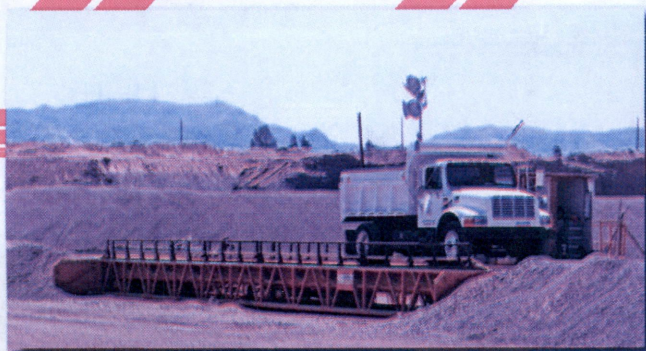

Casey Brandenburg

Generate an Annual Report To File

To Generate a Annual Report form to be filed with the Secretary of State, select the appropriate year of the report you intend to file. This report does not contain details of a report previously filed with the Secretary of State. The annual report years reflected are an indication of the various report forms available in this site and is not an indication that an entity needs to file reports for all years. Missing years indicate that the forms for the missing year have not yet been deployed to the website, or have already been removed, and can be obtained by contacting the Secretary of State.
