### TEMPORARY VARIANCE PERMIT APPROVAL

**Expires: Midnight on August 31, 2018, or Upon Completion of the Project  
(whichever occurs first)**

**Andeavor Logistics LP  
Variance Permit  
Application**

**Case No. WM-18-116**

#### Issued To:

Andeavor Logistics LP  
13072 38<sup>th</sup> St SW  
Belfield ND 58622

#### Scale Location:

Andeavor Logistics LP  
13072 38<sup>th</sup> St SW  
Belfield ND 58622

#### Scale Information:

Fisher Industries/Thurman Model #8100E Portable Truck Scale, Serial Number TBD, 100 ton capacity, 10' x 70'

#### Variance Permit Request Received April 6, 2018:

To operate a portable pitless scale in commerce.

#### Temporary Variance Permit Conditions:

- The scale will not be used beyond its 100 ton overall capacity.
- During the temporary variance period, the scale must maintain acceptance tolerance.
- Once every three months from the date of being placed into service by a registered service company, the scale must be retested and adjusted by a registered service company. The three-month test reports must be submitted to the Commission.
- The service company test report must include both the "as found" and "as left" readings. The placing in service test report MUST include the scale serial number.
- Except for the specific variance granted by Permit Number 528, the scale must be operated according to all applicable North Dakota Laws and Rules.

- The enclosed variance permit must be posted near the designated scale in a place clearly visible to the public.
- Failure to comply with the variance permit conditions may result in revocation.

We must also notify you that a portable pitless scale that is in a location for **6 months or more** must meet approach requirements found in North Dakota Administrative Code Section 69-10-02-09 and NIST Handbook 44 UR.2.6.1 as follows:

On the entrance and exit ends of the vehicle scale there shall be a straight approach as follows:

- the width at least the width of the platform,
- the length of twelve feet or a distance equal to one-third of deck length, whichever is greater, beginning in a level plane with the surface of the scale deck, and
- the first twelve feet of the straight approach from the scale must be of metal or concrete to insure that this portion remains smooth and level and in the same plane as the platform. Metal grating must be of sufficient strength to withstand all loads equal to the concentrated load capacity of the scale. Any slope of the remaining portion of the straight approach away from the scale deck may not exceed one-third inch [8.47 millimeters] per foot [30.48 centimeters].
- any slope in any remaining portion of approaches beyond the straight approach shall ensure ease of vehicle access, ease for testing purposes, and drainage away from the scale.

If you have any further questions, or require additional information, please feel free to contact me at (701) 328-4097.

Dated April 10, 2018

Konrad Crockford, Director  
Compliance Division

Public Service Commission

## TEMPORARY VARIANCE PERMIT

**Expires: Midnight on August 31, 2018, or Upon Completion of the Project  
(whichever occurs first)**

**Issued To:**

**Permit No. 528**

Andeavor Logistics LP  
13072 38th St SW  
Belfield ND 58622

**Scale Location:**

Andeavor Logistics LP  
13072 38th St SW  
Belfield ND 58622
