Re: North Dakota Intrastate Access Coalition  
North Dakota Tariff No. 1

Dear Mr. Nitschke:

John Staurulakis, Inc. (“JSI”) files the enclosed tariff material on behalf of North Dakota Intrastate Access Coalition North Dakota Tariff No. 1 issuing carriers (“issuing carriers”) listed at Appendix A. Proposed revisions are made in compliance with current Federal Communications Commission (“FCC”) rules governing intercarrier compensation. The proposed revisions bear an effective date of July 3, 2018. A copy is provided for each of the 17 issuing carriers for which revisions are proposed, as well as an electronic copy.

National Exchange Carrier Association (“NECA”) interstate switched access rates are expected to increase effective July 3, 2018, thereby increasing the capped rates which the issuing carriers must match for terminating access by July 3, 2018,<sup>1</sup> with the exception of two carriers as discussed in the following paragraph. The issuing carriers’ rate tables established in 2012 to provide for the rate transition period through the year 2020 reflect proposed revisions resulting from NECA’s increased switched access rates. Rates are based on the 0.222 percent interstate switched access rate increase as announced by NECA on March 27, 2018 (see Exhibit 1). If NECA rates approved by the FCC differ from those proposed in this filing, rates will be adjusted to match the approved NECA rates. Issuing carriers’ interstate terminating switched access rates are contained in NECA Tariff F.C.C. No. 5 which may be found at [https://www.neca.org/Tariff\\_5.aspx](https://www.neca.org/Tariff_5.aspx).

Nemont Telephone Cooperative, Inc. (“Nemont”) and Missouri Valley Communications, Inc. (“Missouri Valley”) are issuing carriers for the Moss Adams F.C.C. Tariff No. 1 and

## **For your information** **Switched access rate changes**

March 27, 2018

TO: General and pool contacts at TS pool members

Commission rules require NECA to adjust capped interstate switched access rates, other than terminating end office rates, to reflect pool election changes. Pool election changes for the upcoming tariff year resulted in a 0.222 percent increase in these rates. NECA did not include the increase in the data shown in the CAF ICC website when it opened earlier this month for data entry, pending discussion with FCC staff to have the increase deemed de minimus.

NECA has recently been advised the FCC does not consider this increase de minimus. We will therefore adjust switched access rates for the upcoming tariff year. **Adjusted rates will be available in the CAF ICC website on April 10.**

NECA will apply the 0.222 percent rate increase related to pool election changes to originating end office rates and all transport rate elements. Rates are rounded up to the last significant decimal place for a five or greater and rounded down otherwise.

The proposed terminating end office rate will be \$0.002133, which is \$0.0007 plus one-third of the difference between \$0.005 and \$0.0007 per minute.

In the [CAF ICC website](#) (login required), we will modify the following for test period 2018-2019:

- interstate switched access rate levels,
- intrastate switched access rate levels for those companies with intrastate rates at parity with interstate rates,
- interstate terminating end office access service rates to not exceed \$0.002133 per minute, and
- switched access revenues.

Proposed interstate and intrastate monthly and nonrecurring switched access rates can be viewed in the CAF ICC Data Collection website in the Study Area Intrastate Data section by selecting the Intrastate Revenues (FCC TRP) Output link. Your company's existing local switching and local transport rate band assignments will remain unchanged in the upcoming filing. **Adjusted intrastate rates, both end office and transport, available April 10, need to be filed with state regulatory commissions.**
