Dear Commissioners –

Having traveled many places over my life time, I have always been blessed to call North Dakota my home and brag about our beautiful Badlands and our TR National Park. I am also a supporter of local jobs and have said for many years that we should have local refineries to help out our economy, HOWEVER the placement of the refinery is NOT in the best interest of North Dakota or its citizens.

I travel to the park frequently for drives along the loop and to ride horse with friends and I often speak to other visitors. Recently I spoke to four visitors who have been friends for many years, who live in different States and have ridden their horses in parks and open range areas all over the western United States. Their favorite place to ride is the TR Park as it is in their words “unspoiled” and “the beautiful views”. These men are retired and plan several trips a year but rarely ride in the same area twice but one of the stops EVERY YEAR is our beautiful park in the badlands. It is a place where you can imagine being a Native American or an old cowboy “ridin’ the range”.

The idea of a plant is great, that it is a “clean” plant is GREAT, but it will be an eye sore for visitors to the park and those traveling along I-94.

Please vote NO on this proposal!

Kathy Davis
