

Dakota Natural Gas, LLC

Bringing Natural Gas to the Drayton, ND Area

September 5, 2018

Dakota Natural Gas, LLC

Formed to deliver the benefits of natural gas to the Drayton area and its residential and corporate citizens.

Built on a successful model to leverage the experience of an established Minnesota family of companies.

Greater **Minnesota**
Synergy, Inc

Dedicated to Delivering the Benefits of Natural Gas to Unserved Rural Communities

Residential Customers

Save \$500 to \$1000 per year

Businesses

Save 20% to 40% per year

Communities

Save \$250,000 to \$500,000 per year

Lower energy costs gives residents financial flexibility, increasing money for groceries, recreation, tuition, business investments, facility improvements, and other priorities.

The GMS Family of Companies: Providing Natural Gas to Rural Areas

Our Core Mission

To provide access to clean, affordable natural gas energy to our customers and the communities we serve, including rural communities and those where natural gas service was previously unavailable.

Our Values

We're small, we're hands-on, and we care about the people we serve. Our culture of responsiveness means high quality customer service and problem solving without the hassle and red tape of larger companies.

Our Commitment

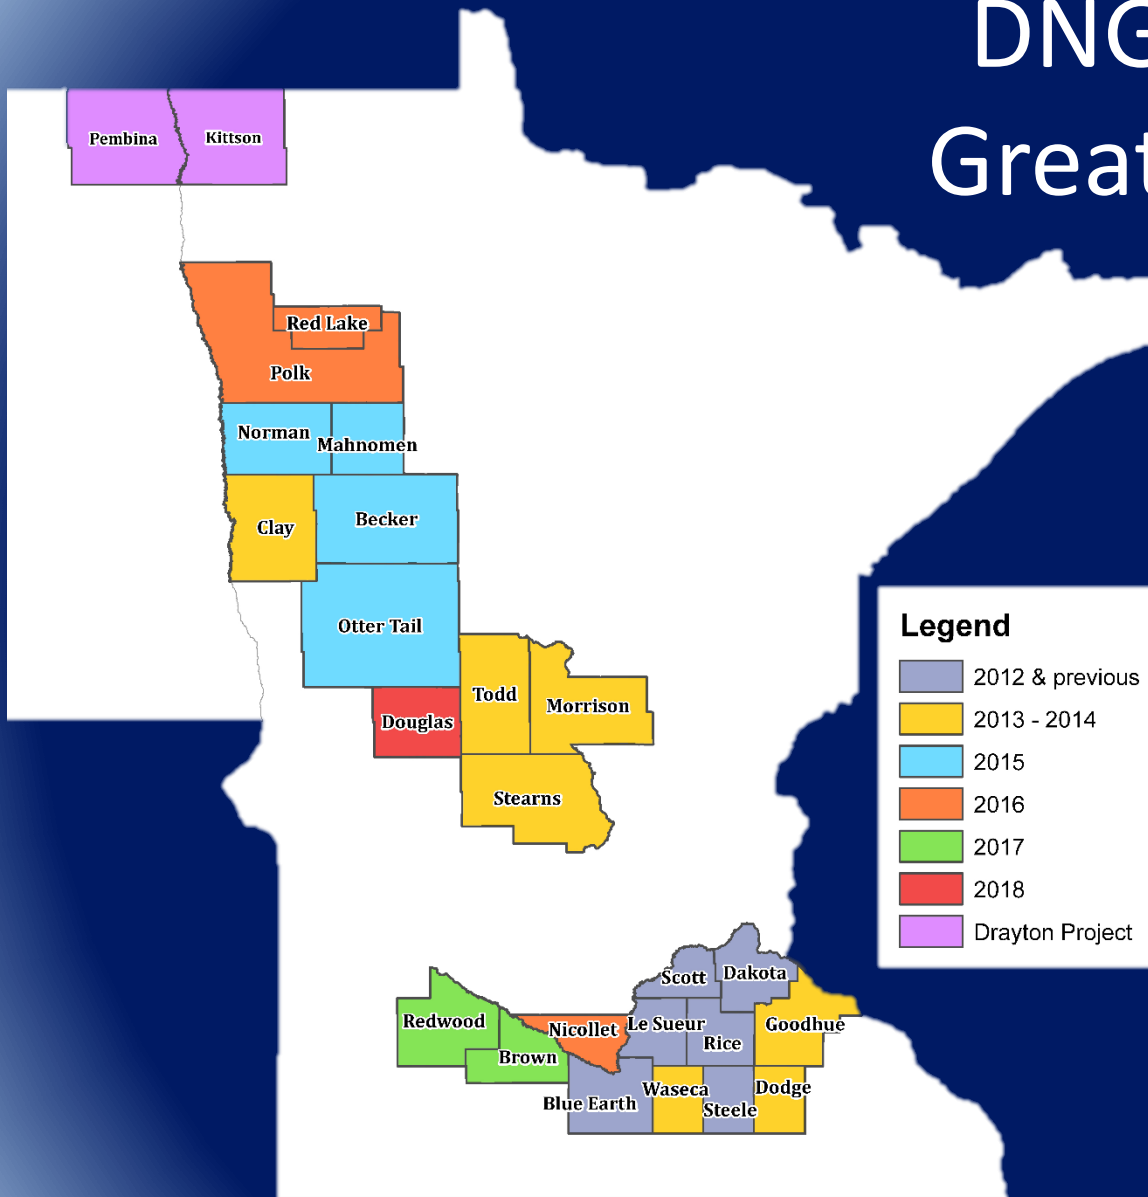

Our professional team is dedicated to offering creative solutions to the issues our customers face at every level - from community to business to residential. We are committed to...

- * Safe, creative solutions
- * Personal administration and decision making
- * Friendly, responsive customer service
- * Safety in all that we do
- * Continuous improvement

Why should you trust us to supply energy to the Drayton community, businesses, farms, and homes?

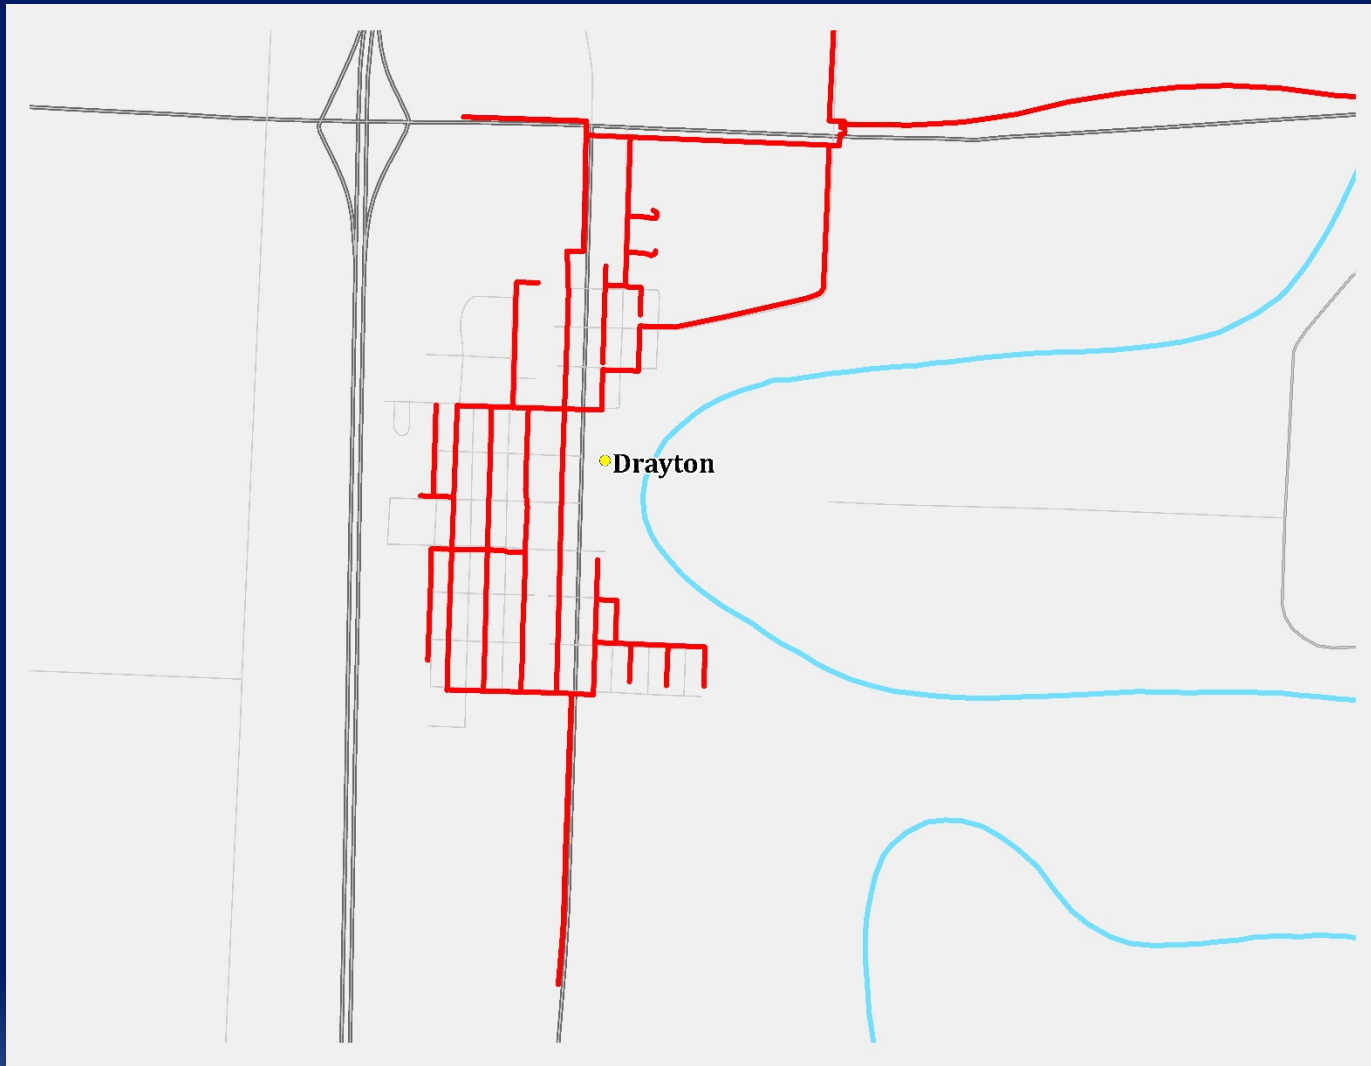

The answer is simple. We are not just some big energy company. We are real people who care about the communities we become part of, and the difference is easy to see

DNG Expands the Greater Minnesota Synergy Service Areas

*Proudly Serving
23 Counties
and Looking
Forward to 25*

Service to Drayton Area

Steps to Success

1. Drayton franchise approval expected September 10th.
2. FERC regulatory process for approval of Hinshaw exemption on target for Fall, 2018 decision.
3. City of Drayton and American Crystal Sugar Company filed documents supporting DNG's FERC requests.
4. DNG is moving forward to obtain required regulatory and permitting approvals.
5. DNG is poised to provide the Drayton community with access to an essential service and contribute to an improved standard of living and economic development in the area.

**DNG and North Dakota:
a relationship worth pursuing.**
